

Preliminary Design Specification- You are now in the Design phase of the SDLC

Each group must further analyze, update and submit the following documents:

- Any new requirements not specified
- Any new change requests
- Any new updates for the schedule
- An updated budget following Gantt chart

Complete the following for your Application and submit **the following to Canvas**

//One submission per group

D2.	Phase2 Design and Prototype.	
D2.1.	Format Requirements: The submission file should be MS Word compatible and saved as “Project Name _part#_Your group #”, e.g. PCParts _P2_ group3. Each deliverable must contain: - Title or Project Name, - Group number, - Team lead name and - Team member names. - Sponsor Name (If Applicable) The document should be professionally formatted and free of grammar and spelling errors. 10 pts.	
D2.2.	Content Requirement: Wireframe - Annotated Wireframes for all your UI screens., including placement of elements like buttons, images, and text for all pages for your website (30 pts.) - A non-Interactive prototype for 3-4 of the wireframed pages (30 pts.) - A logo for your ecommerce website (30 pts.)	
	Subtotal:	100 points

These elements should help you visualize the project before moving to development phase (not for this class), this way you will ensure that the product you are building meets your client needs and is feasible to build.

Team Name: Cowboys

Project Name: FaceRoll- Facial Recognition System

Team Name: Cowboys

Team Lead: Gabriel Oniyitan

Team Members: Austin Woodruff, Moses Ojo, Cade Powell, Isaiah Bailey

Course: CSCE 4905.501 - Information Technology Capstone I

Group: Group 4

The image displays two mobile application screens side-by-side.

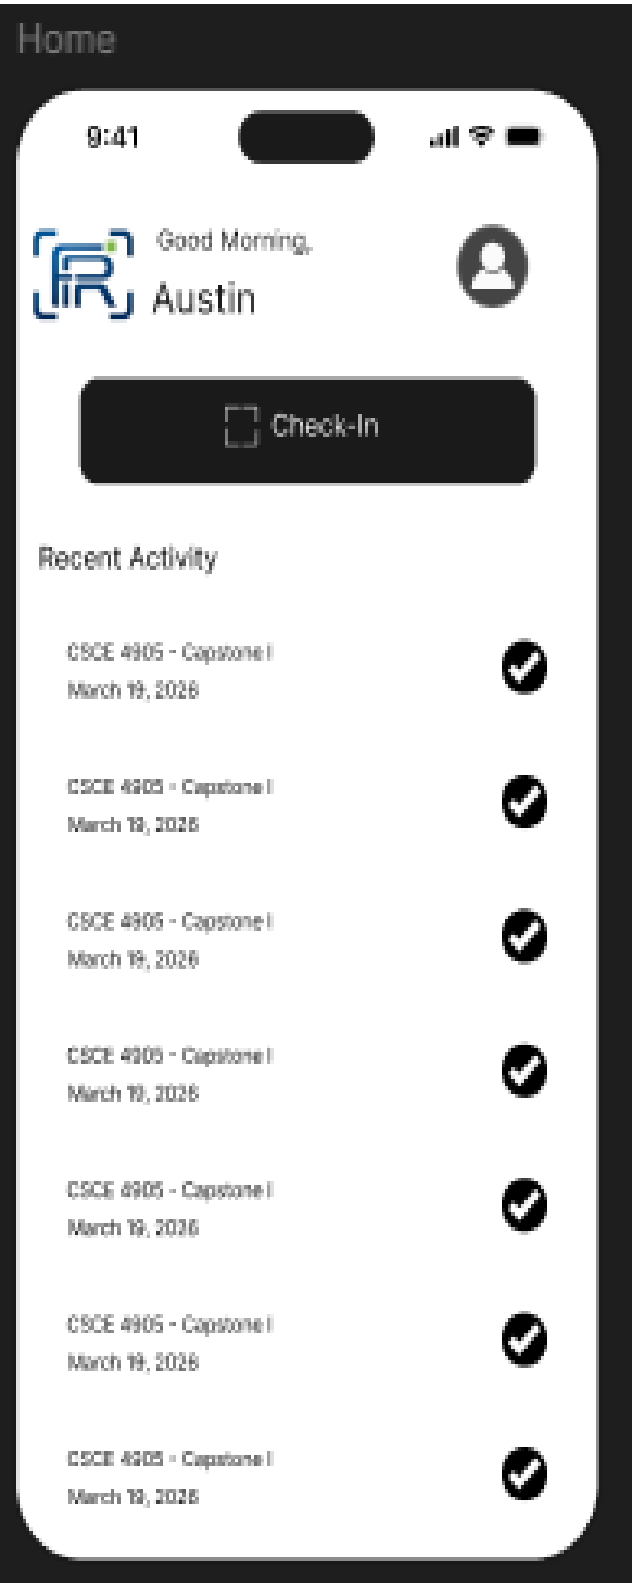

The left screen, titled "Face Capture - Enrollment", has a dark gray background. At the top, it shows the time "9:41" and status icons for signal, Wi-Fi, and battery. A close button (an 'X' in a circle) is in the top right. In the center, there is a white oval with corner brackets, and below it, the text "Position your face within the oval". At the bottom center is a white circle representing a camera lens.

The right screen, titled "Home", has a white background. It also shows the time "9:41" and status icons. Below the title bar, there is a logo for "Good Morning, Austin" and a user profile icon. A large "Check-In" button is centered below the header. Underneath is a section titled "Recent Activity" which contains a list of six items. Each item consists of the text "CSCE 4905 - Capstone I" followed by the date "March 19, 2026" and a circular icon containing a checkmark.

The image shows a mobile application interface. At the top, the status bar displays '9:41', signal strength, Wi-Fi, and battery icons. The app header includes a blue 'GR' logo, the text 'Good Morning, Austin', and a user profile icon. Below this is a large blue 'Check-In' button. The 'Recent Activity' section lists seven entries, each consisting of 'CSCE 4905 - Capstone I' and 'March 19, 2026', followed by a blue checkmark icon.

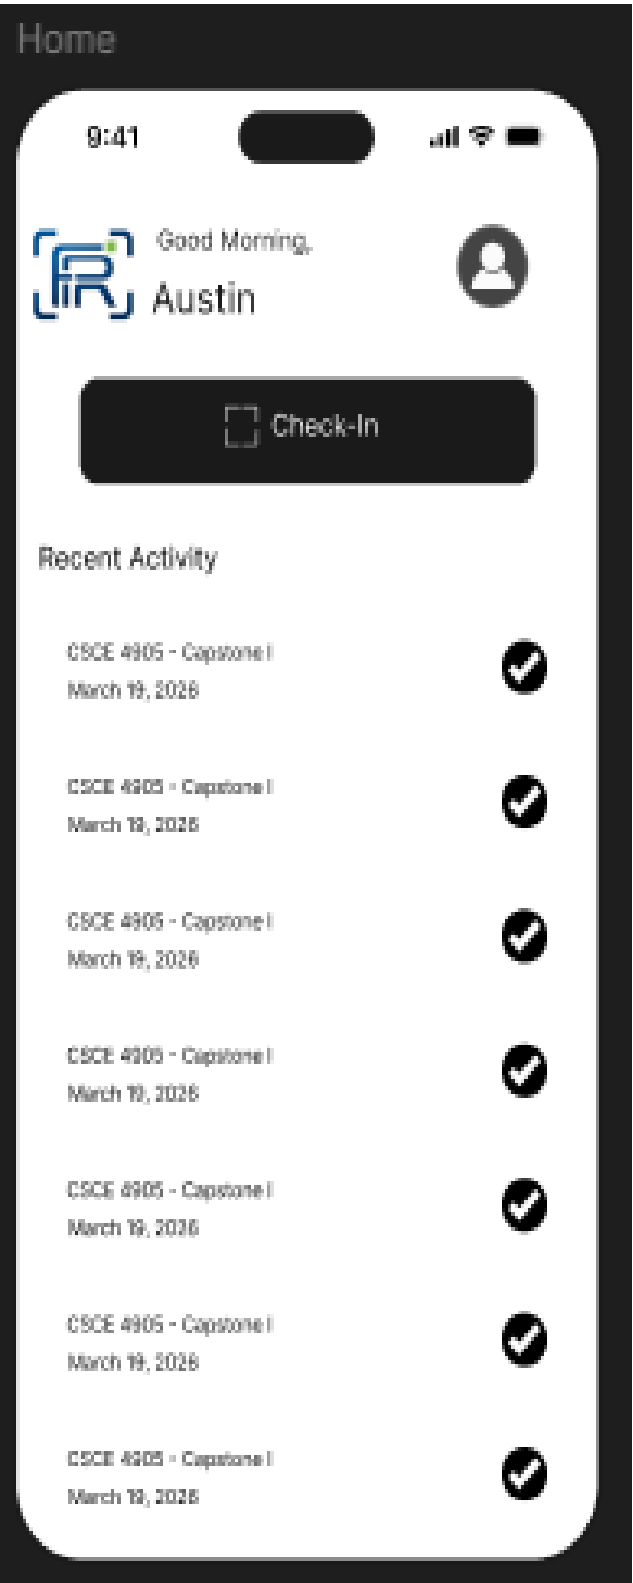

A mobile app interface for 'Good Morning, Austin'. At the top, the status bar shows the time 9:41, cellular signal, Wi-Fi, and battery. The app header includes a blue 'GR' logo, the text 'Good Morning, Austin', and a user profile icon. Below the header is a large blue 'Check-In' button. The 'Recent Activity' section lists seven identical entries: 'CSCE 4905 - Capstone I' followed by 'March 19, 2026' and a blue checkmark icon.

The image shows a mobile application interface. At the top, the status bar displays the time 9:41, cellular signal strength, Wi-Fi connectivity, and battery level. The app's header features a logo on the left, the text "Good Morning, Austin" in the center, and a user profile icon on the right. Below the header is a large, rounded rectangular button labeled "Check-In" with a calendar icon. The main section is titled "Recent Activity" and contains a list of seven items. Each item consists of the text "CSCE 4905 - Capstone I" followed by "March 19, 2026" on the next line, and a circular icon with a checkmark on the right. The bottom of the screen shows a portion of an iOS-style home indicator bar.

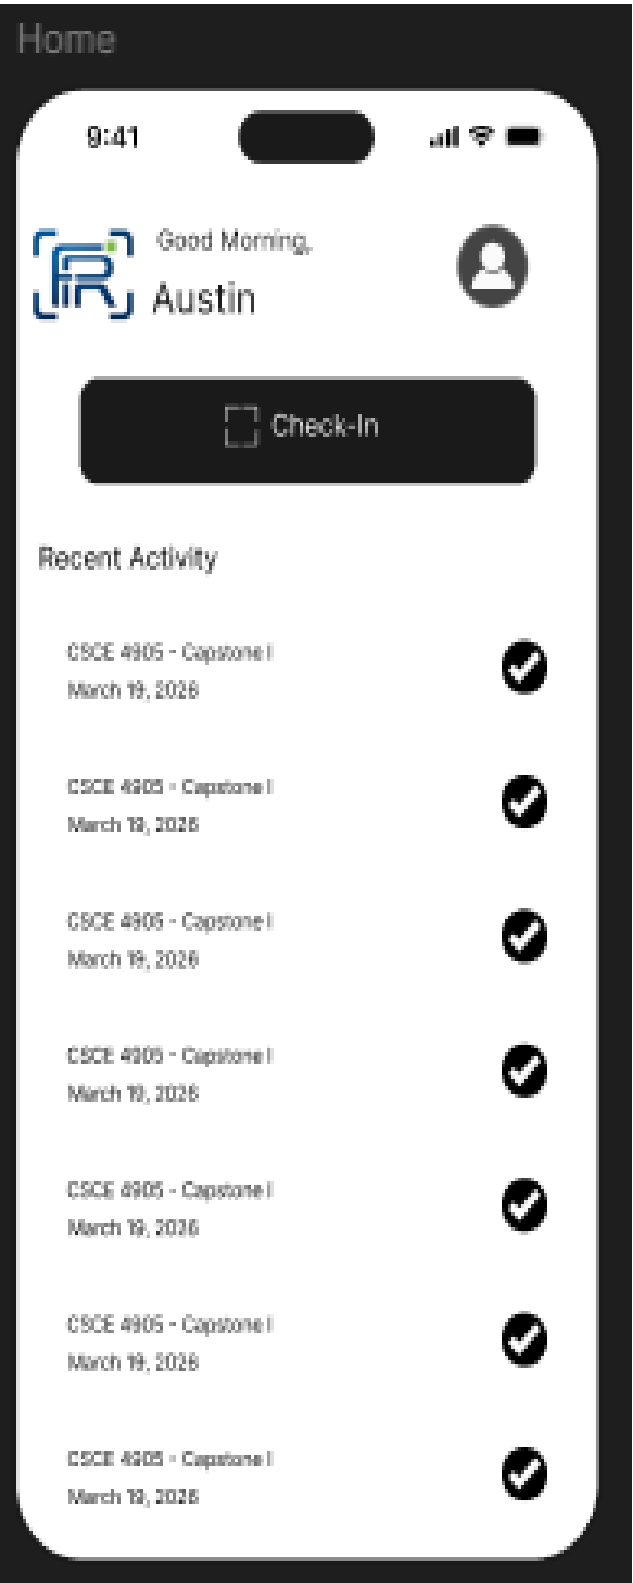

A mobile app interface for 'Good Morning, Austin'. The screen shows a 'Check-In' button and a list of 'Recent Activity' with seven entries, each marked with a checkmark.

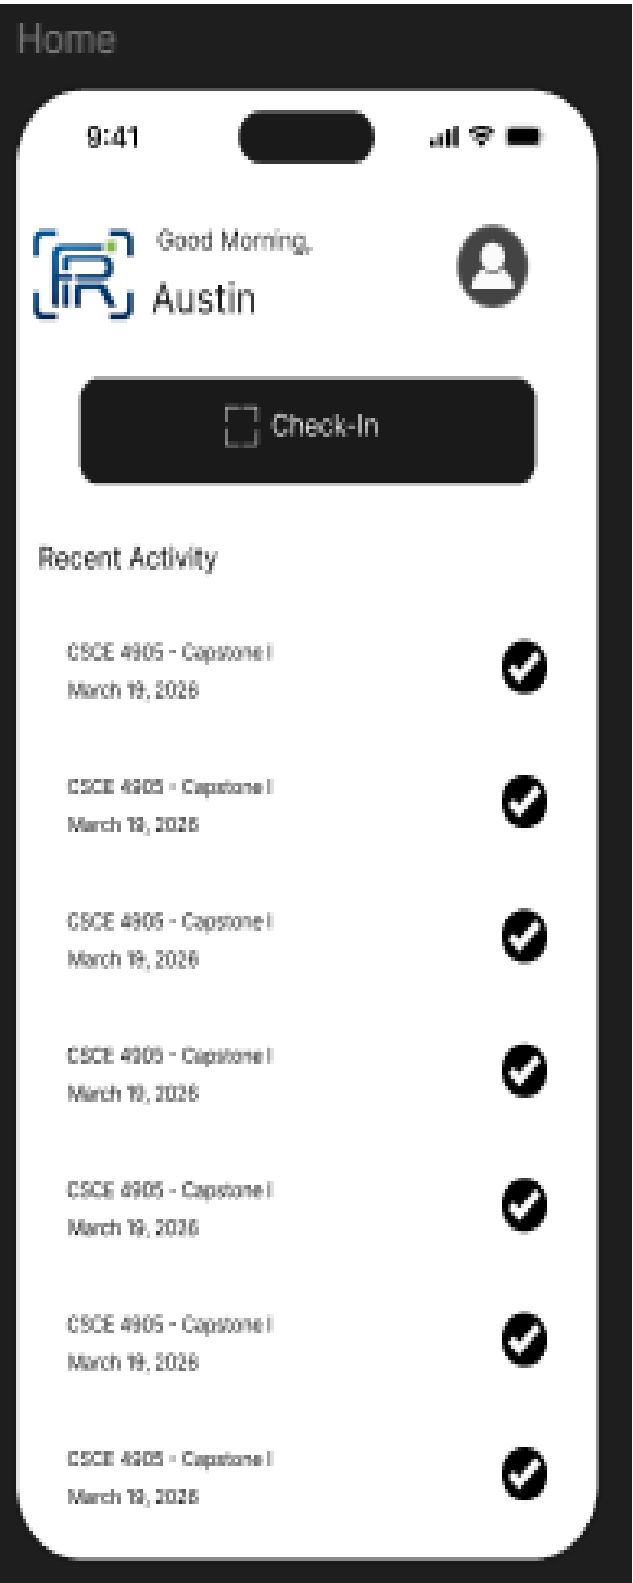

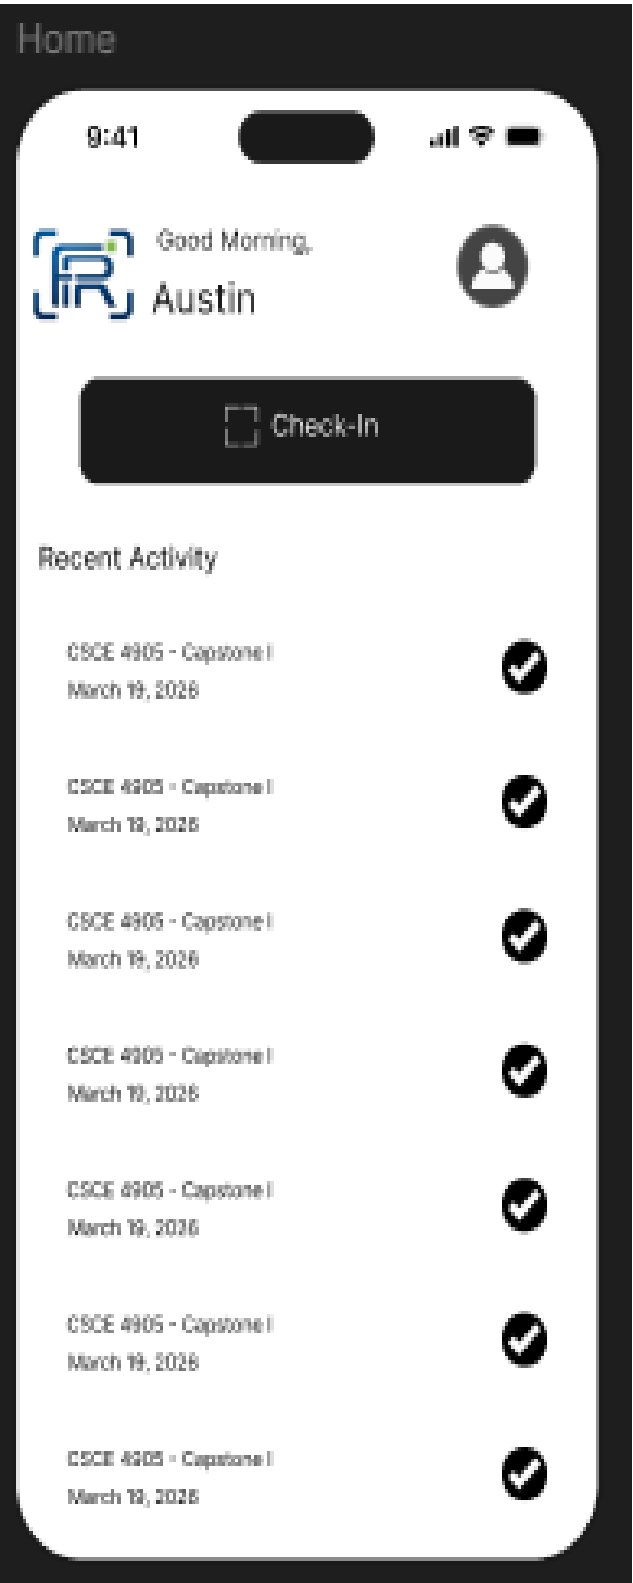

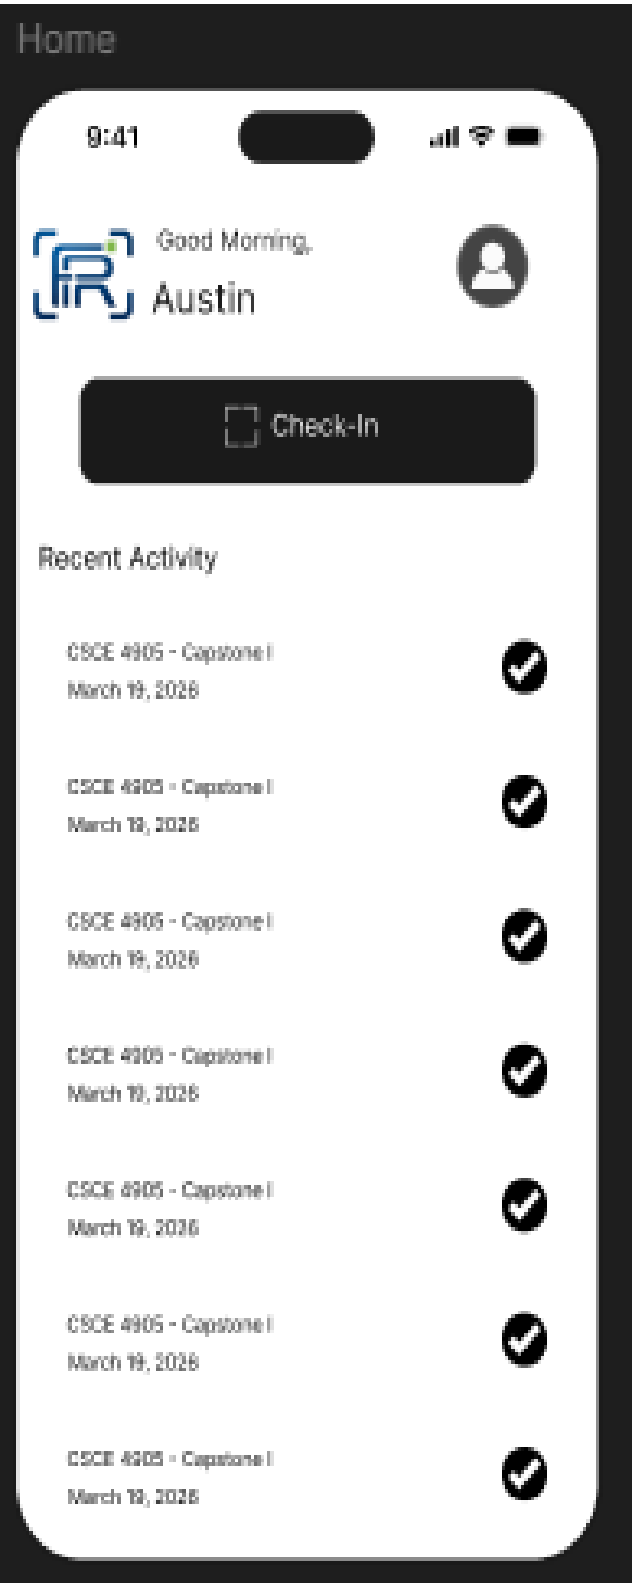

A mobile app interface for 'Good Morning, Austin'. The screen shows a 'Check-In' button and a list of 'Recent Activity' with seven entries, each marked with a checkmark.
